BLUE DISTINCTION® CENTERS & BLUE DISTINCTION® CENTERS+ Quality health care – now even better

Not all hospitals are the same. Even the most prestigious facilities may specialize in one treatment over another – which means you might need a hand finding the right hospital for you.

The Blue Distinction designation gives patients and their doctors an objective look at medical facilities providing a high level of specialty care within seven specialty areas.¹⁰ Designation is a rigorous process, with criteria established with input from expert physicians and medical organizations. There are currently two designations: Blue Distinction Centers and Blue Distinction Centers+.

Both Blue Distinction Centers and Blue Distinction Centers+ have proven results in quality care, treatment expertise and overall patient outcomes:

- + Staff is expert in their specialties, with hundreds of hours of experience
- + Patients receive the highest level of support at all stages of treatment
- + Patients who receive surgery or other procedures have fewer complications

Blue Distinction Centers+ must also meet cost-efficiency measures. This means higher quality care at lower costs. Blue Distinction Center+ designations began in 2013 in these specialty areas: Spine Surgery, Knee and Hip Replacement, Cardiac Care, Bariatric Surgery, Transplant Surgery and Maternity Care.
