## Section 1 – Introduction

This directory provides a list of Blue Medicare PPO’s plan providers. It also includes basic information about how to get your covered services with Blue Medicare PPO. To get more detail information about your health care coverage, please see your Evidence of Coverage.

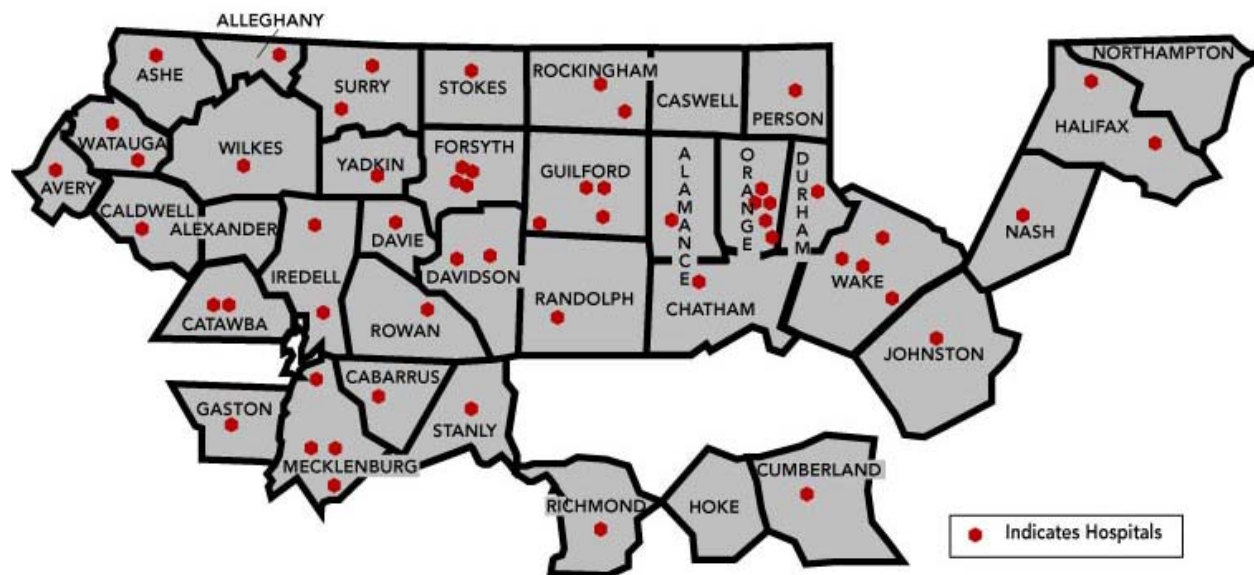

You will have to choose one of our plan providers that is listed in this directory to be your **Primary Care Provider (PCP)**. The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP.

The “plan providers” listed in this directory have agreed to provide you with your health care coverage. In most cases, your health care coverage is covered under Blue Medicare PPO. You may go to any of our plan providers listed in this directory. If you have been going to one plan provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-plan providers.

### What is the service area for Blue Medicare PPO?

The counties in our service area are listed below.

Alamance	Catawba	Guilford	Orange	Surry
Alexander	Chatham	Halifax	Person	Wake
Alleghany	Cumberland	Hoke	Randolph	Watauga
Ashe	Davidson	Iredell	Richmond	Wilkes
Avery	Davie	Johnston	Rockingham	Yadkin
Cabarrus	Durham	Mecklenburg	Rowan	
Caldwell	Forsyth	Nash	Stanly	
Caswell	Gaston	Northampton	Stokes	

## **How do you find Blue Medicare PPO providers in my area?**

It is easy to find a Plan Provider in this directory. First, you should identify the type of provider you are trying to find. Then, you would search alphabetically for the preferred county and then the city of your choice. Within each city, we provide a further breakdown of providers by sub-specialty such as Family Practice or Surgery, or Optometry. And, finally, within each sub-specialty listing, you would search alphabetically for a provider by practice name and then physician name.

For example, to find a PCP, look at the top of the pages for the section labeled Primary Care Physicians. If you want to find a PCP in the town of Clemmons in Forsyth County, you would then search alphabetically for Forsyth County and then alphabetically within Forsyth County for Clemmons. Under Clemmons, you will find subsections labeled Family Practice, Geriatrics, and Internal Medicine. If you want a Geriatric PCP, then go that subsection, and you will find an alphabetical listing by practice name followed by physician name, address and phone number.

You can also visit [www.bcbsnc.com/member/medicare](http://www.bcbsnc.com/member/medicare) or call our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957.

## **What if you use non-plan providers to get covered services?**

**“Non-plan providers” are providers that are not part of Blue Medicare PPO.** If you use non-plan providers, you may have to pay more.

If you get a health care service from a plan provider, this is known as an “in-network” service. The plan providers who provide you health care services are called “network” providers. A health care service you get from a non-plan provider is known as an “out-of-network” service.

Medicare requires that we have enough in-network providers to give you covered services that are medically necessary.

You may use non-plan providers to get your covered services. Although, your out-of-pocket costs may be higher than if you use our plan providers. For emergency care, including post stabilization care, and urgently needed care, your out-of-pocket costs will be the same both in and out-of-network. For cost sharing information, see your Evidence of Coverage.

There are special rules for out-of-network services. Certain services that we offer are not covered out-of-network. Also, you do not need to get a referral or prior authorization when you get out-of-network care from non-plan providers. However, before getting an out-of-network service, you may want to check with your plan to see if the services you are getting are covered by your plan and are medically necessary. Although you do not need to get prior authorization for certain out-of-network services, some plans may offer lower costs if you choose to get prior authorization. For more information, see your Evidence of Coverage.

### **What should you do if you have bills from non-plan providers that you think should be paid by Blue Medicare PPO?**

If a non-plan provider asks you to pay for covered services, please contact us at our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957. Or write to Blue Medicare PPO, PO Box 17509, Winston-Salem, NC 27116-7509. You should never pay any non-plan provider more than what is allowed by Medicare. The non-plan provider has a right to get his/her fees, but does not have a right to get them from you. Ask the non-plan provider to bill us first. If you have already paid for the covered services, we will reimburse you for our share of the cost. If you get a bill for the services, you can send the bill to us for payment. We will pay your non-plan provider for our share of the bill and will let you know what, if anything, you must pay.

### **Getting care when traveling or away from the plan's service area**

You can get care when you are outside the service area. If you get care outside the service area from a non-plan provider, you may have to pay more. However, you won't have to pay more for emergency or urgently needed care whether it is provided by a plan or non-plan provider. For more information about medical emergency and urgently needed care, see [Section 5](#). If you have questions about your medical costs when you travel, please call our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957.

### **Can the list of plan providers change?**

Yes, Blue Medicare PPO may add or remove plan providers from our provider directory. To get current information about Blue Medicare PPO plan providers in your area, you can visit [www.bcbsnc.com/member/medicare](http://www.bcbsnc.com/member/medicare) or call our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957.

### **Your rights to access and participate in medical care**

You have the right to get timely access to plan providers and to all services covered by the plan. Timely access means that you can get appointments and services within a reasonable period of time. You have the right to get full information from your providers when you go for medical care. You have the right to participate fully in decisions about your health care. You have the right to refuse care.

## **Section 2 - Choosing your Primary Care Provider (PCP)**

### **What is a “PCP”?**

When you become a member of Blue Medicare PPO, you must choose a plan provider to be your PCP. Your PCP is a physician, nurse practitioner, or physician’s assistant who meets state requirements and is trained to give you basic medical care. You will get your routine or basic care from your PCP. Your PCP can also coordinate the rest of the covered services you need.

### **How do you choose a PCP?**

At the time of enrollment, each member was required to select a PCP from among Family Practice, General Practice, Internal Medicine, Geriatric or Pediatric physicians, nurse practitioner, or physician’s assistant. If a PCP was not selected at the time of enrollment, you were assigned to a PCP.

You may change your PCP for any reason, but changes are effective the first of the month following the receipt of your request. To find a listing of PCP’s in this directory, look for the heading “Primary Care Providers” at the top of the page. You should then search alphabetically for the appropriate county and city closest to your home.

For the most up-to-date listing of PCP’s, you may also check our website at [www.bcbsnc.com/member/medicare](http://www.bcbsnc.com/member/medicare) or call our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957.

### **Getting care from your PCP**

Generally, you see your PCP first for most of our routine health care needs. However, you do not need to get a referral from your PCP when you get care from non-plan providers.

Your PCP can help you arrange or coordinate your covered services. This includes x-rays, laboratory tests, therapies, specialists, hospital admissions, and follow-up care. Your PCP also contacts other plan providers for updates about your care and/or treatments. In some cases, your PCP will need to get prior authorization (prior approval). Since your PCP will provide and coordinate your health care, you should have all of your past medical records sent to your new PCP’s office. The law requires us to protect your privacy of medical records and personal health information. For more information about privacy, see your Evidence of Coverage.

### **How to change your PCP**

You may change your PCP for any reason, at any time. To change your PCP, call our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957. They will check that the PCP you wish to switch to is accepting new patients. Customer Services will tell you when the change to your new PCP will take effect.

### **What if your doctor or provider leaves Blue Medicare PPO?**

Sometimes a doctor, specialist, clinic, or other plan provider you are using might leave the plan. If this happens, you will have to switch to another provider who is part of Blue Medicare PPO. If your PCP leaves Blue Medicare PPO, we will let you know, and help you switch to another PCP so that you can continue getting covered services.

### **Section 3 – Getting care from specialists**

A **specialist** is a doctor who provides health care services for a specific disease or part of the body. Some examples of specialists are oncologists, who treat cancer; cardiologists, who treat heart conditions; and orthopedists, who treat certain bone, joint, or muscle conditions. In the PPO you do not need any referrals if you are going to see a PPO specialist.

Your PCP may need to get approval ahead of time from our Healthcare Services Department. This is called “prior authorization.”

Remember, you can get care from non-plan specialists without a referral or prior authorization from another doctor. However, if you use our plan specialists, your costs for covered services will be lower than if you used non-plan specialists.

## **Section 4 – What if you need medical care when your doctor’s office is closed?**

### **What to do if you have a medical emergency or urgent need for care and your doctor’s office is closed**

In an emergency, you can get care immediately. You do not have to contact your doctor or get authorization in an emergency. You can dial 911 for immediate help by phone, or go directly to the nearest emergency room, hospital, or urgent care center. For more information about emergency or urgent needed care, see [Section 5](#).

### **What to do if it is not a medical emergency and your PCP’s office is closed**

If you need to talk with your PCP or get medical care when the PCP office is closed, and it is *not* a medical emergency, call your PCP’s 24 hour phone number. TTY users dial 711 and ask the operator to dial your PCP’s phone number for you. You should identify yourself as a Blue Medicare PPO member and explain the illness or injury in detail and request the appropriate course of action. There is always a doctor on call to help you.

Additionally, if you have health questions, you may also call the Telephone Learning Center (TLC) Line at 1-888-215-4069. (Note: This line should not be substituted for contacting your PCP.) This toll-free health information line is available for Blue Medicare PPO members 24 hours a day, 7 days a week. You may get personalized health advice from a registered nurse about health issues or you may be directed to additional sources of information. With the TLC Line, you can also listen to recorded information on more than 1,600 health topics. To obtain a list of available health information topics please visit the Health and Wellness section of our website at [www.bcbsnc.com/member/medicare](http://www.bcbsnc.com/member/medicare).

For more information about what to do if you have an urgent need for care, see [Section 5](#).

## **Section 5 – Getting care if you have a medical emergency or an urgent need for care**

### **What is a medical emergency?**

A situation is a “medical emergency” if **you reasonably believe that your health is in serious danger**. It means that every second counts. Some examples of “medical emergencies” are severe pain, a bad injury, a serious illness, or a medical condition that is getting worse.

### **What should I do if I have a medical emergency?**

If you have a medical emergency:

- Get medical help as quickly as possible. Call 911 for help or go directly to the nearest emergency room. **In any emergency, you never need to contact any plan provider, even your own PCP, for either permission (“authorization”) or referral.**
- However, as soon as possible, you or someone else should contact your PCP about your emergency. We recommend you carry your PCP’s phone number with you at all times. Customer Services can also provide your PCP’s phone number 7 days a week from 8:00 a.m. to 8:00 p.m. Your PCP needs to know about your emergency because your PCP will coordinate follow-up care. Please try to contact your PCP about your emergency within 48 hours.

### **Your PCP will help manage and follow-up on your emergency care**

It is important to know that every emergency has two stages.

When the doctors, or hospital, providing emergency care consider your condition stable, the first stage of the medical emergency ends. However, even after your condition is stabilized, you are still considered in an emergency situation and Blue Medicare PPO must still pay for post-stabilization treatment provided by the hospital (whether or not this hospital is a plan provider or not). This second stage of the emergency, after your condition is stabilized is call “post-stabilization.”

Generally, the hospital, or doctors, providing emergency care will try to talk to your PCP. This helps the plan to arrange for plan providers to take over your care as soon as your condition and circumstances get better. Once your PCP takes over your care or agree with the attending hospital on an appropriate course of action (or once you are discharged if you are fully recovered), you are no longer in an emergency or post-stabilization situation.

Although you are past the emergency and post-stabilization, you may still need follow-up care. However, your plan is responsible for your follow-up care. Your plan will only pay for follow-up care after your emergency and post-stabilization if you follow the plan rules. You will need to use plan providers to get authorization, and/or referrals.

### **What is covered if I have a medical emergency?**

- You can get covered emergency medical care whenever you need it, anywhere in the world.
- **Ambulance services** are covered in situations where other means of transportation in the United States would endanger your health.

### **What if it wasn't really a medical emergency?**

To have your plan pay for your emergency care, you do not have to be certain that it is an emergency. For example, you might go in for emergency care—thinking that your health is in serious danger—but the doctor may disagree and not consider this a medical emergency. If this happens, you are still covered for the diagnostic treatment and care you received to determine what was wrong, provided that you thought your health was in serious danger, as explained in the section “What is a ‘medical emergency’” above. However, please note that:

- If you get any extra care after the doctor says it was not a medical emergency, the amount of the covered extra care that we pay will depend on whether you get the care from plan provider.
- If you get the care from plan providers, your costs will usually be lower than if you get the care from non-plan providers.

### **What is “urgently needed care”? (This is different from a medical emergency.)**

Urgently needed care refers to a non-emergency situation where you are temporarily absent from the Plan's authorized service area, you need medical attention right away for an unforeseen illness, injury, or condition, and it isn't reasonable given the situation for you to obtain medical care through the Medicare Advantage Plan's participating provider network. **Note:** Under unusual and extraordinary circumstances, care may be considered urgently needed when the member is in the service area, but the provider network of the Plan is temporarily unavailable or inaccessible.

### **What is the difference between a “medical emergency” and “urgently needed care”?**

The two main differences between urgently needed care and a medical emergency are in the danger to your health and your location. A “medical emergency” occurs when you reasonably believe that your health is in serious danger, whether you are in or outside of the service area. “Urgently needed care” is when you need medical help for an unforeseen illness, injury, or condition, but your health is not in serious danger and you are generally outside of the service area.

### **Getting urgently needed care when you are in the plan’s service area**

If you have a sudden illness or injury that is not a medical emergency, and you are in the plan’s service area, please call your PCP. PCP’s are required to provide coverage 24 hours per day, 7 days a week. If your need for care is after regular office hours, you should still call your PCP’s office number. If you do not know your PCP’s phone number, the telephone operator can assist you or you can call Blue Medicare PPO Customer Services 7 days a week between 8:00 a.m. and 8:00 p.m. When you call our PCP, identify yourself as a Blue Medicare PPO member and explain the illness or injury in detail. Your PCP, or the physician on-call for your PCP, may give treatment advice by telephone, prescribe medication, request an office visit, instruct you to go to another plan provider for treatment, or refer you to the emergency room at a participating hospital or urgent care facility. There is always a doctor on call to help you. Keep in mind that if you have an urgent need for care while you are in the plan’s service area, you should get this care from plan providers. You can get urgently needed care from a non-plan provider; however, your costs will be lower if you use plan providers.

### **Getting urgently needed care when you are outside the plan’s service area**

Blue Medicare PPO covers urgently needed care that you get from non-plan providers when you are outside the plan’s service area, but still in the United States. If you need urgent care while you are outside the plan’s service area, you should call your PCP, if possible. If you are treated for an urgent care condition while out of the service area, we prefer that you return to the service area to get follow-up care through your PCP. However, we will cover follow-up care that you get from non-plan providers outside the plan’s service area as long as the care you are getting still meets the “urgently needed care” definition.

We also cover renal dialysis (kidney) services that you get when you are outside the plan’s service area.

## **Section 6 – For more information**

For more detailed information about your Blue Medicare PPO provider coverage, please review the Evidence of Coverage.

If you have questions about Blue Medicare PPO, please call our Customer Service Department at 1-877-494-7647, 7 days a week from 8:00 a.m. to 8:00 p.m. TTY users should call 1-888-451-9957. Or, visit [www.bcbsnc.com/member/medicare](http://www.bcbsnc.com/member/medicare).

## Section 7 – List of Plan Providers

If your plan includes Medicare Prescription Drug coverage, please refer to our separate Pharmacy Directory.

### DEFINITION OF SYMBOLS/LIMITATIONS USED IN THIS DIRECTORY

- ① Accepting current, established patients only
- ② Accepting current patients and newborns only
- ③ Accepting new patients age 6 and older only
- ④ Accepting new patients age 16 and older only
- ⑤ Accepting new patients age 18 and older only
- ⑥ Accepting new patients age 50 and older only
- ⑦ Accepting new patients age 12 and younger only
- ★ Indicates Board Certification

Blue Medicare PPO plans are offered by PARTNERS National Health Plans of North Carolina, Inc. (PARTNERS), a subsidiary of Blue Cross and Blue Shield of North Carolina (BCBSNC). PARTNERS is a Medicare Advantage organization with a Medicare contract to provide HMO and PPO plans. Plans are administered by BCBSNC. BCBSNC and PARTNERS do not discriminate based on color, gender, religion, national origin, age, race, disability, handicap, sexual orientation, genetic information, source of payment or health status as defined by the Centers for Medicare & Medicaid Services (CMS). All qualified Medicare beneficiaries may apply. You must be entitled to Medicare Part A and enrolled in Medicare Part B and must reside in the CMS-approved service area. You must continue to pay your Medicare Part B premium, if not otherwise paid for under Medicaid or another third party. BCBSNC and PARTNERS are independent licensees of the Blue Cross and Blue Shield Association. ®, SM Marks of the Blue Cross and Blue Shield Association. SM1 Mark of Blue Cross and Blue Shield of North Carolina. U4640a, 9/07
