

Blue Cross and Blue Shield of North Carolina Colonoscopy benefit fact sheet

Colonoscopy is a covered benefit for Blue Cross and Blue Shield of North Carolina (BCBSNC) members. Below is a summary of the standard benefit for colonoscopy screening.

- The out-of-pocket cost of a colonoscopy done in an office based colonoscopy center is a member's specialty co-payment for Blue Care, Blue Options and Blue Advantage members.
- Colon cancer screening is an enhanced preventive benefit for Blue Options HSA members. Screening must take place in an office location to meet the Blue Options HSA preventive benefits.
- Members can have a colonoscopy in a hospital or ambulatory care center, subject to deductible and coinsurance. Colonoscopy screening in a office based colonoscopy center can lead to significant out-of-pocket cost savings for members.
- Members can check their benefit booklets or call BCBSNC Customer Service to determine their benefits.
- Physicians who do colonoscopies in an office based colonoscopy center are listed in the provider directory at bcbsnc.com, under Find a Doctor (see illustration below).

You can get a list of office based colonoscopy centers by calling BCBSNC customer service or by visiting bcbsnc.com and clicking "Find a Doctor"
