# Co-Surgeon, Assistant Surgeon, and Assistant-at-Surgery Guidelines

**File Name:** co-surgeon\_assistant\_surgeon\_and\_assistant\_at\_surgery\_guidelines  
**Policy Number:** ADM9010  
**Origination:** 01/2000  
**Last Review:** 07/2009  
**Next Review:** 07/2010

### Description of Procedure or Service

---

Co-Surgeons are defined as two or more surgeons, usually from different specialties, where the participation of both surgeons is necessary in performing a specific operative procedure. This may be necessary due to the complex nature of the procedure(s) and/or the patient's condition. Co-Surgeons may also be of the same specialty, or may be of different specialties operating on separate body systems. Co-Surgery is always performed during the same operative session. Co-Surgeons may also be referred to as a Surgical Team.

An assistant surgeon is defined as a physician who actively assists the operating surgeon in the performance of a surgical procedure. In this case, one physician is acting as the surgeon and the other is acting as an assistant. This may be necessary because of the complex nature of the procedure(s) or the patient's condition. The assistant surgeon performs medical functions under the direct supervision of the operating physician. The assistant is usually in the same specialty.

A physician assistant/nurse practitioner/nurse midwife can serve as an assistant at surgery.

### Policy

---

**Co-Surgeons: Benefits are allowed for medically necessary procedures and allowance(s) will be determined on an individual consideration basis.**

**Assistant Surgeon: Benefits are allowed when medical necessity and appropriateness of assistant surgeon services are met. The assistant surgeon benefit for a covered procedure is 20% of the maximum allowed for the procedure.**

**Physician Assistant/Nurse Practitioner/Nurse Midwife: Benefits are allowed when medical necessity and appropriateness of assistant surgeon services are met, and when the physician assistant/nurse practitioner/nurse midwife is under the direct supervision of a physician. Separate benefits will not be allowed for the hospital-employed physician assistant/nurse practitioner/nurse midwife. The physician assistant/nurse practitioner/nurse midwife benefit for a covered procedure is 85% of the maximum allowed for an assistant surgeon.**

**Blue Cross and Blue Shield of North Carolina uses ClaimCheck® guidelines as its primary source for determining those procedures available for assistant surgeon benefits.**

### Benefits Application

---

Please refer to Certificate for availability of benefits. This policy relates only to the services or supplies

## **Policy: Co-Surgeon, Assistant Surgeon, and Assistant-at-Surgery Guidelines**

described herein. Benefits may vary according to benefit design, therefore certificate language should be reviewed before applying the terms of the policy.

### **When Co-Surgeon, Assistant Surgeon, and Physician Assistant/Nurse Practitioner/Nurse Midwife Services are covered**

---

• **Co-Surgeons or Surgical Team**

Services by surgeons of different specialties performing procedures on separate body systems will be allowed at 100% of the maximum allowance for the primary procedure performed by each surgeon. An additional 20% may be allowed if the surgeons of different specialties assisted each other and criteria for assistant surgeon services are met.

Services by surgeons of the same specialty will be allowed at 100% of the maximum allowance for the primary procedure performed. An additional 20% will be allowed if criteria for assistant surgeon services are met. The total allowance for the operative session will be divided equally between the surgeons.

Services rendered by surgeons of different specialties who are performing the approach in order for the other surgeon to have access enabling performance of the primary procedure may be allowed on an individual consideration basis.

• **Assistant Surgeon**

An assistant surgeon must be appropriately board-certified or otherwise highly qualified as a skilled surgeon, and licensed as a physician in the state where the services are provided.

• **Physician Assistant/Nurse Practitioner/Nurse Midwife**

A physician assistant/nurse practitioner/nurse midwife must be appropriately certified or licensed in the state where the services are provided, and be credentialed in the facility where the procedure is performed.

### **When Co-Surgeon, Assistant Surgeon, and Physician Assistant/Nurse Practitioner/Nurse Midwife Services are not covered**

---

- Services will not be covered if the above criteria are not met.
- Physicians will not be allowed additional benefits for the supervision of a physician assistant/nurse practitioner/nurse midwife.
- RN-First Assistants are not eligible for reimbursement as surgical assistants.

### **Policy Guidelines**

---

- Refer to Multiple Procedure and Bundling guidelines for procedures performed in addition to the primary procedure(s) during the same operative session.
- When multiple procedures are performed and the secondary procedures are allowable according to the multiple procedure guidelines, but not individually eligible for assistant surgeon services, benefits for those services may be allowed on an individual consideration basis.
- On occasion, a procedure not allowed assistant surgeon benefits may be unusually complex for a particular patient and warrant assistant surgeon services. These cases will be reviewed on an individual consideration basis.

## **Policy: Co-Surgeon, Assistant Surgeon, and Assistant-at-Surgery Guidelines**

- When a surgeon is unexpectedly requested to render services during an ongoing operative session, claims will be reviewed according to the above criteria.

### **Billing/Coding/Physician Documentation Information**

---

This policy may apply to the following codes. Inclusion of a code in this section does not guarantee that it will be reimbursed. For further information on reimbursement guidelines, please see Administrative Policies on the Blue Cross Blue Shield of North Carolina web site at [www.bcbsnc.com](http://www.bcbsnc.com). They are listed in the Category Search on the Medical Policy search page.

*Applicable Codes:*

*Co-Surgeon modifiers are -62 or -66.*

*Assistant surgeon modifiers are -80, -81, or -82.*

*Physician assistant/Nurse Practitioner/Nurse Midwife modifier is -AS.*

*Claims for more than one surgeon should have each surgeon's provider identification number.*

*Claims and medical records for all providers in the operative session may be required.*

### **Medical Term Definitions**

---

**Not Applicable**
