Your plan for better health.SM

What is the Blue Medicare HMO - RAI Formulary?

A formulary is a list of covered drugs selected by Blue Medicare HMO - RAI in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Blue Medicare HMO - RAI will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Blue Medicare HMO - RAI network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary change?

Generally, if you are taking a drug on our 2008 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2008 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or improve the safety of your drugs.

If we remove drugs from our formulary, add prior authorization or quantity limits and/or step therapy restrictions on a drug or move a drug to a higher

cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of June 1, 2008. To get updated information about the drugs covered by Blue Medicare HMO - RAI, please visit our Web site at www.bcbsnc.com/members/rai and click on "Retiree Coverage," or call Customer Service at 1-888-310-4110, 7 days a week, 8 a.m. to 8 p.m. TTY/TDD users should call 1-888-451-9957.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 13. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiac Drugs." If you know what your drug is used for, look for the category name in the list that begins on page 13. Then look under the category name for your drug.

A new category added this year is "Enhanced Benefit Drugs." These drugs are covered under your Blue Medicare HMO-RAI plan, but are not included in the traditional list of Part D covered drugs. In order for these medications to

process under your Blue Medicare HMO - RAI benefits, you must have a prescription from your physician for the specific drug. Additionally, the amount you pay for these drugs do NOT count toward your deductible and total drug costs. If you receive extra help to pay for your prescriptions, you will not get any extra help to pay for these drugs. For additional information on your financial responsibility, please refer to your Evidence of Coverage.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 60. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Blue Medicare HMO - RAI covers both brand-name drugs and generic drugs. A generic drug has the same active-ingredient as the brand name drug. Generic drugs usually cost less than brand name drugs and are approved by the Food and Drug Administration (FDA).

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Blue Medicare HMO - RAI requires you to get prior authorization for certain drugs. This means that you will need to get approval from Blue Medicare HMO - RAI before you fill your prescriptions. If you don't get approval, Blue Medicare HMO - RAI may not cover the drug.
- **Quantity Limits:** For certain drugs, Blue Medicare HMO - RAI limits the amount of the drug that Blue Medicare HMO - RAI will cover. For example, Blue Medicare HMO - RAI provides 9 tablets per prescription for a 30 day supply of Imitrex 100mg. This may be in addition to a standard one month or three month supply.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 13.

You can ask Blue Medicare HMO - RAI to make an exception to these restrictions or limits. See the section, "How do I request an exception to the Blue Medicare HMO - RAI's formulary?" on page 5 for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary, you should first contact Customer Service and ask if your drug is covered. If you learn that Blue Medicare HMO - RAI does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Blue Medicare HMO - RAI. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Blue Medicare HMO - RAI.
- You can ask Blue Medicare HMO - RAI to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Blue Medicare HMO – RAI Formulary?

You can ask Blue Medicare HMO - RAI to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Blue Medicare HMO - RAI limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.
- You can ask us to provide a higher level of coverage for your drug. If your drug is contained in our non-preferred tier, you can ask us to cover it at the cost-sharing amount that applies to drugs in the preferred tier instead. This would lower the

amount you must pay for your drug. Please note, if we grant your request to cover a drug that is not on our formulary, you may not ask us to provide a higher level of coverage for the drug.

Generally, Blue Medicare HMO - RAI will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower-tiered drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. When you are requesting a formulary, tiering or utilization restriction exception you should submit a statement from your physician supporting your request. Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your prescribing physician's supporting statement.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover

the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will cover a temporary 31-day transition supply (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

For enrollees requesting temporary coverage for a non-covered medication supply because they are in transition, the plan will facilitate the request for transition medication coverage. These types of requests may originate from an enrollee being unaware of a change in prescription drug coverage to a Part D plan, a change to Part D coverage resulting from a change in health care delivery setting, or a delay in attaining coverage for a non-formulary drug during Part D plan processing that requires time to gather the necessary information to determine coverage eligibility (e.g., formulary exceptions, or prior authorization).

For more information

For more detailed information about your Blue Medicare HMO - RAI prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Blue Medicare HMO - RAI, please call Customer Service at 1-888-310-4110, 7 days a week, 8 a.m. to 8 p.m. TTY/TDD users should call 1-888-451-9957.) Or visit www.bcbsnc.com/members/rai and click on "Retiree Coverage."

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit www.medicare.gov.

<Blue Medicare HMO - RAI's Formulary

The formulary that begins on page 13 provides coverage information about some of the drugs covered by Blue Medicare HMO - RAI. If you have trouble finding your drug in the list, turn to the Index that begins on page 77.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., PROZAC) and generic drugs are listed in lower-case italics (e.g., *fluoxetine*).

The information in the Requirements/Limits column tells you if Blue Medicare HMO - RAI has any special requirements for coverage of your drug.

- QL means Quantity Limits apply
- (*) means these brand name drugs have a generic equivalent available in some or all dosage forms.
- DC means Part D coverage is applicable only if the agent is not eligible for coverage under Part B based on Medicare guidelines.
- PA means prior approval may be required; Part D coverage is applicable only if the agent is not eligible for coverage under Part B.

The following tier levels refer to the level of coverage for each medication:

- Tier 1 includes covered generic medications.
- Tier 2 includes preferred brand-named drugs.
- Tier 3 includes non-preferred brand-name drugs.

BlueCross BlueShield of North Carolina

Your plan for better health.^{SM1}

Blue Medicare HMO plans are offered by PARTNERS National Health Plans of North Carolina, Inc. (PARTNERS), a subsidiary of Blue Cross and Blue Shield of North Carolina (BCBSNC). PARTNERS is a Medicare Advantage organization with a Medicare contract to provide HMO and PPO plans. Plans are administered by BCBSNC. BCBSNC and PARTNERS do not discriminate based on color, gender, religion, national origin, age, race, disability, handicap, sexual orientation, genetic information, source of payment or health status as defined by the Centers for Medicare & Medicaid Services (CMS). All qualified Medicare beneficiaries may apply. You must be entitled to Medicare Part A and enrolled in Medicare Part B and must reside in the CMS-approved service area. You must continue to pay your Medicare Part B premium, if not otherwise paid for under Medicaid or another third party. BCBSNC and PARTNERS are independent licensees of the Blue Cross and Blue Shield Association. ®, SM Marks of the Blue Cross and Blue Shield Association. SM1 Mark of Blue Cross and Blue Shield of North Carolina. U4638, 9/07
