Your path to Medicare

As you get closer to qualifying for Medicare, you'll want to be sure you're ready to make the choices that work best for you.

When it comes to Medicare coverage, there are basically two paths you can take: Original Medicare or Medicare Advantage.

Our goal is to make you feel confident and ready to choose the path that's right for you. That's why we created this guide. You'll find information on these two paths and the options each presents.

So, read on and learn more about the benefits Medicare has to offer you.

Blue Cross and Blue Shield of North Carolina (Blue Cross NC) is here to help! You'll see our contact information on the bottom of page 3. Feel free to contact us with any questions, big or small.

What is Medicare?

Medicare is a federal program to help people aged 65 and older (or under age 65 who are Medicare-eligible) cover health care costs. It includes four types of coverage, labeled Parts A, B, C, and D.

Originally Medicare had just two parts, Part A hospital benefits and Part B medical benefits. Together, Part A and Part B are called Original Medicare.

Over the years, Medicare has introduced Part C and Part D. Part C, also known as Medicare Advantage, takes the place of Original Medicare and is offered by private insurers like Blue Cross NC. Medicare Advantage plans generally offer more benefits than Original Medicare. Part D is prescription drug coverage you can add to Original Medicare. Medicare Advantage (Part C) plans usually already include prescription drug benefits.

So, as you consider how to make Medicare work for you, there are basically two paths you can take: Original Medicare or Medicare Advantage.

i In the know

What if I'm not retiring yet?

You still qualify for Medicare at age 65, but it may or may not make sense to enroll. Check with your employer's human resources manager or benefits specialist to learn about your options.

Medicare basics

PATH 1

Original Medicare

Original Medicare – Part A

- Provided by the federal government
- Inpatient care in hospitals
- Skilled nursing facility care
- Hospice care
- Home health care

Original Medicare – Part B

- Provided by the federal government
- Physician services
- Ambulance services
- Mental health
- Durable medical equipment
- Some preventive services

Additional Path 1 coverage options

- Offered by Medicare-approved private insurance companies

Medicare Supplement plan

- Also known as Medigap
- Helps cover the costs Original Medicare Parts A and B leave you to pay

Prescription Drug Plan – Part D

- Stand-alone plan to help cover your prescription drug costs

PATH 2

Medicare Advantage

Medicare Advantage – Part C

- Offered by Medicare-approved private insurance companies
- Covers the same types of care as Original Medicare Parts A and B
- Lowers your share of the costs when you use doctors and hospitals in your plan's network

Prescription Drug Coverage

- Included in most Medicare Advantage plans to help cover your prescription drug costs

Medicare Advantage plans may offer other additional benefits as well.

In the know

What if I have retiree benefits that include health insurance?

Check with your employer's human resources manager or benefits specialist to see your options. In some cases, if you keep your current coverage and wait until later to join Medicare, you may have fewer choices and pay more.

PATH 1

Meet Mary

Path 1 is her preference

- Traveler
- Traditionalist
- Wants absolute freedom of choice

*“During my career, I always chose a traditional health plan for me and my family. It may have cost a little more, but we liked the freedom it gave us. Basically, we could go to any doctor anywhere, show our ID card, and know we were covered. I wanted the same with Medicare.”**

*For example only.

Original Medicare Parts A and B

Additional coverage options: Medicare Supplement and Medicare Part D (Prescription Drug Plans)

Original Medicare was never designed to cover all hospital and medical costs. That’s why people often pair Original Medicare with a Medicare Supplement and a Medicare Part D (Prescription Drug Plan). It may sound complicated, but this section shows how it can all tie together to give you complete, worry-free coverage.

Key advantages:

- 1 Your coverage is good from coast-to-coast.
- 2 You have freedom to travel and see any doctor or hospital that accepts Medicare.
- 3 Some Medicare Supplement plans offer coverage for foreign travel emergency care.

Consider this example:

Mary's overnight stay at the local hospital

*"I woke up with some horrible pains in my chest. We took no chances and went right to the ER. They found no signs of a heart attack. Then, a week later the same thing happened, and I had to stay overnight in the hospital for more tests. It's a good thing I had a Medicare Supplement plan."**

*For example only.

What would Mary's medical costs be?

Medical services	Cost ¹	Mary's cost with Original Medicare alone	Mary's cost with Original Medicare + Blue Medicare Supplement SM Plan G
Hospital fees¹ (Tests, nursing care, semi-private room, and meals)	\$2,991	\$1,736 (Part A deductible)	\$1,736
ER fees² (Tests and doctors' fees)	\$2,100*	\$703 (Part B deductible plus 20% of remaining fees)	\$283 (Part B deductible)
Totals	\$5,091	\$2,439	\$2,019

Medicare deductibles noted are for 2026. Medical costs do not reflect monthly premiums.

*Costs tabulated according to the latest report on emergency department visits from the Agency for Healthcare Research and Quality (AHRQ).

1 Better Care, bettercare.com/costs/er-visit-cost (Accessed November 2025).

2 Source: AHRQ, hcup-us.ahrq.gov/reports/statbriefs/statbriefs.jsp (Accessed July 2025).

In the know

Does Original Medicare cover dental, hearing, and vision care?

No. However, Medicare Advantage plans may include dental, hearing, and vision coverage. Also, many insurance companies offer stand-alone dental, hearing, and vision plans.

Does Original Medicare cover long-term care?

Expenses for long-term care facilities, such as nursing homes, are not covered. However, Medicare does include benefits for a skilled nursing facility where you may need to spend an extended period of time for recuperation/rehabilitation (from a surgery or other significant inpatient medical procedure) before you can return home.

Original Medicare – 2026 Benefits

Medicare Part A

Annual premium: Usually available at no cost if you or your spouse made payroll contributions to Social Security for at least 10 years. To learn more, visit [Medicare.gov](https://www.Medicare.gov).

Covered services

Your share of the costs

Inpatient hospital

- A semi-private room
- Your hospital meals
- Operating room and recovery room services
- Drugs, medical supplies, and medical equipment when an inpatient
- Care on special units, such as intensive care
- Some blood for transfusions (also covered in a skilled nursing facility)

- Days 1-60: \$0 copay for each benefit period* (after \$1,736 deductible)
- Days 61-90: \$434 copay per day of each benefit period
- Days 91 and beyond: \$868 copay per each “lifetime reserve day” after day 90 for each benefit period (up to 60 days over your lifetime)
- Beyond lifetime reserve days: You pay the full cost

Skilled nursing facility (follow-up to a hospital stay)

- Semi-private room and skilled nursing care
- Meals and dietary counseling
- Physical and occupational therapy
- Speech-language pathology services
- Medical social services
- Medications, medical supplies, and equipment used in the facility
- Ambulance transportation to the nearest supplier of needed services that aren’t available at the skilled nursing facility

- Days 0-20: \$0 copay for each benefit period (after \$1,736 deductible)
- Days 21-100: \$217 copay per day of each benefit period
- Days 101 and beyond: You pay the full cost

Home health care

- Rehabilitation services, such as physical therapy
- Skilled health care in your home if you’re homebound and only need part-time care

- \$0 copay

Hospice care

- Manage symptoms and control pain for the terminally ill

- No more than \$5 copay for each drug prescription you receive in hospice care
- You may need to pay 5% of the Medicare-approved amount for inpatient respite care

Source: [Medicare.gov](https://www.Medicare.gov)

*A benefit period begins on the first day you receive service as an inpatient in a hospital and ends after you have been out of the hospital and have not received skilled care in any other facility for 60 days in a row.

Original Medicare – 2026 Benefits

Medicare Part B

Medicare Part B comes with a **monthly premium of \$202.90** for most people with an income below \$218,000 (joint income tax filing). Contact the Medicare office for more information on Part B premiums. To learn more, visit [Medicare.gov](https://www.Medicare.gov).

Covered services	Your share of the costs
• Doctor visits • Ambulatory surgery center services (also called outpatient surgery centers or same-day surgery centers) • Outpatient medical services • Some preventive care, like flu shots and pneumonia shots • Clinical laboratory services (blood tests, urinalysis, etc.) • X-rays, MRIs, CT scans, EKGs, and some other diagnostic tests • Some diagnostic screenings, like colorectal and prostate cancer screenings and mammograms • Durable medical equipment for use at home (oxygen, wheelchairs, walkers, etc.) • Emergency room services • Skilled nursing care and health aide services for the homebound on a part-time or intermittent basis • Outpatient mental health care • A few prescription drugs administered by a doctor, like chemotherapy drugs	• \$283 deductible – the amount you must spend on the Part B services mentioned in the lefthand column before Medicare begins paying • 20% coinsurance – in general, Medicare pays 80% of your Part B expenses, leaving you with the remainder • Excess charges – Medicare has limits on the cost for services that most health care providers agree to charge; if a provider happens to charge more than the “Medicare-approved amount,” you pay the difference

Source: [Medicare.gov](https://www.Medicare.gov)

Medicare Supplement

Covering costs Original Medicare doesn't

Many people who choose Original Medicare also opt to enroll in a Medicare Supplement plan. Another name for these plans is Medigap coverage because they were created to bridge the gap and cover the costs that Original Medicare does not cover.

They are available from private insurers. The federal government has standardized the benefits for eight different Medicare Supplement plans, named with letters from A to N. (These letters have no relationship to the letters used for Medicare Parts A, B, C, and D.)

As you can see in the chart on the next page, the different plans vary according to which gap they fill in Medicare. Plan G covers most of the gaps in Medicare Parts A and B, leaving only the Part B deductible of \$283 for you to pay. That makes it a popular plan and an easy choice for someone who likes the security of having full coverage for Medicare-approved hospital and medical costs.

Plans C, F, and F-High Deductible were discontinued by the federal government on December 31, 2019. You can only enroll if you turned age 65 on or before that date.

Remember these five facts about Medicare Supplement plans

- 1 You must have Medicare Parts A and B to enroll in a Medicare Supplement plan.
- 2 No matter which insurance company sells the above plans, they must offer the same benefits. For example, Plan A from insurer number one must have the same standard benefits as Plan A from insurer number two.
- 3 Rates for these plans will differ from one insurer to the next and may be based on your age and gender.
- 4 Medicare Supplement plans give you the freedom to choose your own doctors and hospitals from any that accept Medicare.
- 5 These plans do not include prescription drugs or supplemental benefits like dental and vision coverage.

In the know

Can I sign up in advance for a Medicare Supplement plan?

Blue Cross NC lets you get a jump start on your coverage by allowing you to enroll up to six months before your 65th birthday. This may not be the norm for other plans, which typically allow you to enroll three months before your birthday.

2026 Medicare Supplement plans

Note:

✓ = 100% of the benefit is paid. Blue Cross NC offers Plans A, G, HDG, K, and N.

**Plans only
for those first
eligible for
Medicare
before 2020**

Benefits	Plans available to all applicants									
	A	B	D	G ¹	K	L	M	N		
Medicare Part A coinsurance and hospital coverage (up to an additional 365 days after Medicare benefits are used up)	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

Foreign travel emergency (up to plan limits)			✓	✓			✓	✓	✓	✓
Out-of-pocket limit in 2026²					\$8,000 ²	\$4,000 ²				

1 Plans F and G also have a high deductible option which requires first paying a plan deductible of \$2,950 before the plan begins to pay. Once the plan deductible is met, the plan pays 100% of covered services for the rest of the calendar year. High deductible plan G (HDG) does not cover the Medicare Part B deductible. However, high deductible plans F and G count your payment of the Medicare Part B deductible toward meeting the plan deductible.

2 Plans K and L pay 100% of covered services for the rest of the calendar year once you meet the out-of-pocket yearly limit.

3 Plan N pays 100% of the Part B coinsurance, except for a copay of up to \$20 for some office visits and up to a \$50 copay for emergency room visits that do not result in an inpatient admission.

Medicare Part D (Prescription Drug Plans)

When does it make sense to purchase a Part D plan?

Many people who choose a Medicare Supplement plan also enroll in Part D coverage when they become eligible for Medicare. This may make sense for a couple of reasons. First, you may have to pay a late enrollment penalty if you don't enroll during the initial enrollment period, which ends three months after you turn 65. (For complete details on Part D enrollment, visit [Medicare.gov/part-d](https://www.medicare.gov/part-d).) Plus, you'll be able to choose from a variety of plans to suit your needs. Here are a few things to consider before you make that choice:

- **Are your medications covered by the plan?** Be sure to check before you enroll because different plans cover different medications. The list of covered medications may also be called a "formulary."
- **Will you have access to pharmacies near your home and where you travel?** Plans can limit your choice of pharmacies by geographic area, though some offer convenient mail order programs. A plan may also designate "preferred" pharmacies that offer better reimbursement rates than other in-network pharmacies.
- **What are the copay or coinsurance amounts, and how do they change based on your prescription drug spending?** Different plans offer different levels of coverage, so it pays to compare.

*"I checked to make sure my diabetes medication was covered. When I did the math, it was clear that a Part D plan could save me money."**

*For example only.

Qualifying for financial help

Your costs could be lower if you qualify for **Extra Help**. The Extra Help program is offered to people who meet minimum income requirements. To see if you're eligible, **contact the Social Security Office**.

 **800-772-1213**

 **Monday to Friday, 7 AM to 7 PM ET**

 **800-325-0778 (TTY/TDD)**

 **[SSA.gov](https://www.ssa.gov)**

How Part D plans work

In order to be eligible for a Part D plan, you must be enrolled in Original Medicare Parts A and B. Part D plans are offered by private insurance companies, and you can shop around for a plan that fits your needs.

What's different between plans?

The drugs covered (also known as the drug formulary), coverage, rates, and your share of the costs (annual deductible and copays) may vary. It is not enough to compare plans based on rates alone. You need to ensure your medications are covered by the plan and that the cost for your medications is what you expect.

What's the same between plans?

Since plans are regulated by the federal government, they all provide benefits in three different stages as shown in the chart below.

Catastrophic Coverage protects you from exceedingly high costs.

	2026 Medicare Part D benefits
Deductible	• Some plans, but not all, have an annual deductible. • This is the total amount you must spend on prescriptions before the plan starts paying benefits. • Your deductible will be no more than \$615.
Initial Coverage	• You pay a copay or coinsurance (percentage of a drug's total cost); the plan pays the rest. • You stay in this stage until total drug costs (the amount paid by you and the plan) reach \$2,100.
Catastrophic Coverage	After your total out-of-pocket costs reach \$2,100: • You pay no copay or coinsurance amount. • You stay in this stage for the rest of the plan year.

PATH 2

Meet Carl

Path 2 fits his needs

- Sensible
- Value seeker
- Open to different types of plans

"I've had a few different types of health plans over the years. Most of the time I leaned toward more affordable options that had a network of doctors. That was fine with me as long as I could see the doctors and hospitals I trusted and my coverage was good."

*For example only.

Medicare Advantage Part C

Once you enroll in Medicare Parts A and B, you can opt for something different than Original Medicare and Medicare Supplement by choosing a Medicare Advantage plan. You can expect coverage for all of the same services as Medicare Parts A and B, but typically with lower out-of-pocket health care costs.

What's the advantage?

Here are some key reasons why people choose this path over Original Medicare:

1

All-in-one coverage

You can choose a plan that includes prescription drug coverage (instead of purchasing a separate Part D plan) as well as other supplemental benefits such as dental.

2

Limits on out-of-pocket costs

Unlike Original Medicare, Medicare Advantage plans put a cap on your out-of-pocket medical costs. Once you hit the cap, the plan pays 100% of covered costs – not you! (Prescription drugs costs are not included in this cap.)

3

Affordability

Many plans offer comprehensive coverage for a lower out-of-pocket cost than Path 1 (Original Medicare + Medicare Supplement + Part D Rx plan). Keep in mind that you must pay your Part B premium in addition to the plan's premium.

How Medicare Advantage Part C works

All Medicare Advantage plans are coordinated care plans. This means they are built around a network of doctors and hospitals working together to provide your care. Every plan has its own network, and the requirements for using that network depend upon the type of plan you choose (PPO, POS, or HMO). The chart below highlights the key differences.

	PPO	POS	HMO
Requires you to choose a primary care provider from the network. This provider coordinates your care.	Typically	Yes	Yes
Requires you to get referrals to see specialists.	No	Usually	Sometimes
Provides emergency care, urgent care, and dialysis outside of the network.	Yes	Yes	Yes
Provides other coverage outside of the network — you share more of the costs in this case.	Yes	Yes	No

Every Medicare Advantage plan offers you:

- All of the benefits of Medicare Part A (except hospice care)
 - Hospital stays
 - Skilled nursing
 - Home health care
- All of the benefits of Medicare Part B
 - Doctor visits
 - Outpatient care (outpatient surgery, emergency care)
 - Screenings and immunizations
 - Lab tests

Some plans also include:

- Prescription drug coverage
- Eye care
- Hearing care
- Dental benefits
- Wellness programs

PPO stands for **Preferred Provider Organization**

POS stands for **Point Of Service**

HMO stands for **Health Maintenance Organization**

For more definitions, see the Glossary on pages 20–21.

Important things to consider before choosing a plan

Does the network meet your needs?

Every insurance company offers different provider networks. Check to see if the network has the doctors and hospitals you want.

Is it a good value for your needs?

Every plan has different rates, deductibles, and copays. Some may have a higher rate but lower out-of-pocket costs such as a \$0 deductible.

Do you plan on traveling?

If yes, make sure that the network's benefits will suit your needs. PPO and HMO plans may vary in how wide their networks reach and what their out-of-network coverage is.

*"We needed to cut costs at retirement. Our Medicare Advantage plan helped us do that. Now we pay less for our health plan and our health care than when we had employer coverage."**

*For example only.

Whichever path you choose, choose with confidence

Doing your homework now will pay off for years to come. That's why when looking at private insurance (Medicare Advantage, Medicare Prescription Drug Coverage, or Medicare Supplement), you may want to compare more than rates. Here are some key things to consider:

Reputation

What do your friends and neighbors think of the plan? Have they had good experiences over the years?

Local presence

Some plans may understand health care in your region better than others. Will you be able to get service from an office that's in your state?

Overall value

In addition to offering competitive rates, do you get more for your dollar? Look for supplemental benefits such as allowances for over-the-counter medications and dental, vision, and hearing care, as well as fitness and discount programs.

"I like the simplicity and flexibility of my PPO plan. I chose my plan because it covered all of my costs (including prescription drugs), and my doctors were already in the network. When I travel, I know I can use my out-of-network benefits. It's just easy."

*For example only.

In the know

What happens if I want to switch plans?

There are two opportunities for everyone to switch plans: **October 15 to December 7 and January 1 to March 31.** For example, if you switch plans in the fall but decide you don't like the plan once your coverage begins in January, you have time to switch again as long as it's before March 31.

There are some exceptions. For example, if you happen to move to a home outside of your plan's service area, you are allowed to change plans. Visit [Medicare.gov](https://www.medicare.gov) for additional information on Special Enrollment Periods.

What happens if I join a Medicare Advantage plan and my doctor leaves the network? What can I do then?

If you have a PPO plan, you can use your out-of-network benefits for your doctor and pay more. Otherwise, your plan will notify you if your doctor leaves the plan's network, and you'll be able to choose a new doctor from the network.

Medicare timeline

**6 - 12 months
before you turn 65**

Learn

Learn about the different parts of Medicare. If you're covered by your employer's plan, learn what's available for retirees and employees 65 and older. If you have a non-employer individual or family plan, compare it with available Medicare plans.

**4 - 5 months
before you turn 65**

Confirm

Review your latest Social Security statement for accuracy. Contact Social Security to confirm eligibility. Visit [SSA.gov](https://www.ssa.gov) or call **800-772-1213**, 800-325-0778 (TTY).

**0 - 3 months
before you turn 65**

Enroll

Go to [SSA.gov](https://www.ssa.gov) or a Social Security office near you to sign up for Original Medicare Parts A and B. After you sign up for Parts A and B, you can select a Medicare Advantage, Medicare Supplement, and/or Medicare Rx (Part D) plan.

Happy birthday!

Enjoy your 65th birthday and remember: If you haven't signed up for Medicare, you still have time. Sign up soon!

**3 - 6 months
after you turn 65**

Last chance

This is the last chance to enroll in Medicare coverage under your Initial Enrollment Period. If you enroll in Parts A, B, or D after three months from your eligibility date, you may have to pay a higher premium for Parts B and D. This penalty is required by the federal government. You have until six months from your Part B enrollment date to enroll in Medicare Supplement. If you enroll after that, you may miss out on guaranteed acceptance.*

65+

Next steps

Schedule your Welcome to Medicare visit with your doctor.

- Create a record of your health and family history
- Check measures like your blood pressure, weight, and height
- Make sure you're up-to-date with preventive screenings
- Get any necessary tests based on your health

*If you enroll at any time six months past your 65th birthday, you may not be guaranteed acceptance for Medicare Supplement coverage. You may have to answer questions about your health for underwriting to qualify, and you may have to pay more for the coverage, unless you've had qualifying coverage before enrolling.

Review your coverage regularly

As your needs and budget change over time, be sure to take a look at your Medicare coverage on a regular basis. You may want to change your coverage to better match your needs.

When to enroll

Medicare Advantage enrollment

Who's eligible to enroll?

To be eligible to enroll in a Medicare Advantage plan, you must:

- Qualify for Medicare (generally, be 65 or about to turn 65)
- Be enrolled in Original Medicare Parts A and B
- Live in the plan's service area

Initial Enrollment Period:

For those new to Medicare, the period you can first sign up:

- Begins three months before the month you are eligible (usually the month you turn 65)
- Includes the month you are eligible
- Ends three months after the month you are eligible

Annual Enrollment Period: October 15 through December 7

Open Enrollment Period: January 1 through March 31

Medicare Supplement enrollment

You may only enroll in a Medicare Supplement plan if you choose Original Medicare coverage. You can enroll in a Medicare Supplement plan up to six months before your 65th birthday and in the six months after your 65th birthday.

To learn more about your Medicare eligibility, go to [SSA.gov](https://www.ssa.gov) or call 800-772-1213, 800-325-0778 (TTY).

Glossary

A

Annual deductible

The amount you pay for health care or prescriptions before a plan begins to pay.

Annual Enrollment Period (AEP)

The time each year when you can enroll in a Medicare health insurance plan. The Annual Enrollment Period is October 15 through December 7. You can also disenroll during this period.

Assignment

When your doctor or provider agrees to accept the Medicare-approved amount as full payment for covered services.

B

Benefit period

With in Original Medicare, defined as a specific period of time that begins the day you are formally admitted as an inpatient in a hospital or skilled nursing facility, and ends when you have not received any type of inpatient care for 60 days in a row.

C

Coinsurance

An amount you may be required to pay as your share of the cost for services or prescription drugs. Coinsurance is usually a percentage of the cost.

Copayment (Copay)

A fixed dollar amount you pay for a covered service or prescription drug at the time you receive it. Copays can vary depending on the service or drug.

Cost sharing

The amount you pay as your share of the cost for health care services. Cost sharing can include copays, coinsurance, and deductibles.

D

Deductible

The amount you owe for certain covered services during a benefit period before your Medicare health insurance begins to pay.

F

Formulary

The list of prescription drugs that are paid for in full or in part by the health insurance plan you choose.

H

Health care provider

A professional or organization, such as a doctor or a hospital, that provides medical services.

HMO

An abbreviation for Health Maintenance Organization. An HMO offers health coverage through a network of doctors and other health care providers who are under contract to provide covered services at a lower cost to members.

Home care

Skilled nursing and related services provided to patients in a home setting. Other home care services include physical therapy, occupational therapy, speech therapy, medical social services, home health services, and medical supplies and equipment.

Hospice

A program or facility that provides care, comfort, and support services for terminally ill patients and their families. Hospice care concentrates on reducing the severity of disease symptoms, rather than halting or delaying progression of the disease itself.

Glossary

I

Inpatient

A patient who has been formally admitted to the hospital under a doctor's orders.

L

Long-term care

Care that gives help with the activities of daily life, like eating, dressing, and bathing, over a long period of time.

M

Medicare-approved amount

The amount of money that Medicare has approved as the total amount that a doctor or hospital should be paid for a particular service. The total amount includes what Medicare pays, plus any cost sharing you pay.

O

Out-of-pocket maximum

The most you pay for covered services during a benefit period before your plan begins to pay 100% of your covered services. This limit never includes premium payments, services that are not covered, or prescription drug costs.

Outpatient

A patient who is not hospitalized overnight but who visits a hospital, surgery center, or associated facility for diagnosis or treatment and is discharged on the same day.

P

POS

An abbreviation for Point Of Service. It's a kind of managed care plan that combines features of an HMO (Health Maintenance Organization) and a PPO (Preferred Provider Organization). Like an HMO, you choose an in-network physician to be your primary care provider. But like a PPO, you may go outside of the provider network for health care services.

PPO

An abbreviation for Preferred Provider Organization. A Medicare Advantage PPO plan has a network of contracted (in-network) providers. You pay less by using doctors, hospitals, and other providers that belong to the plan's network. You pay more if you use providers that are outside of the plan's network.

Premium

The amount of money you have to pay each month of the year for your health insurance plan.

Provider

A person or organization that provides medical services and products, such as a doctor, hospital, pharmacy, laboratory, or outpatient clinic.

S

Skilled nursing facility care (SNF)

A level of care that requires the daily involvement of a skilled nursing or rehabilitation staff such as physical therapy and intravenous injections. You only qualify after a three-day minimum hospital stay for a related illness or injury. Once you qualify, you're entitled to care that includes a semi-private room and meals for up to 100 days in a benefit period.
